Experts in Digital Accessibility

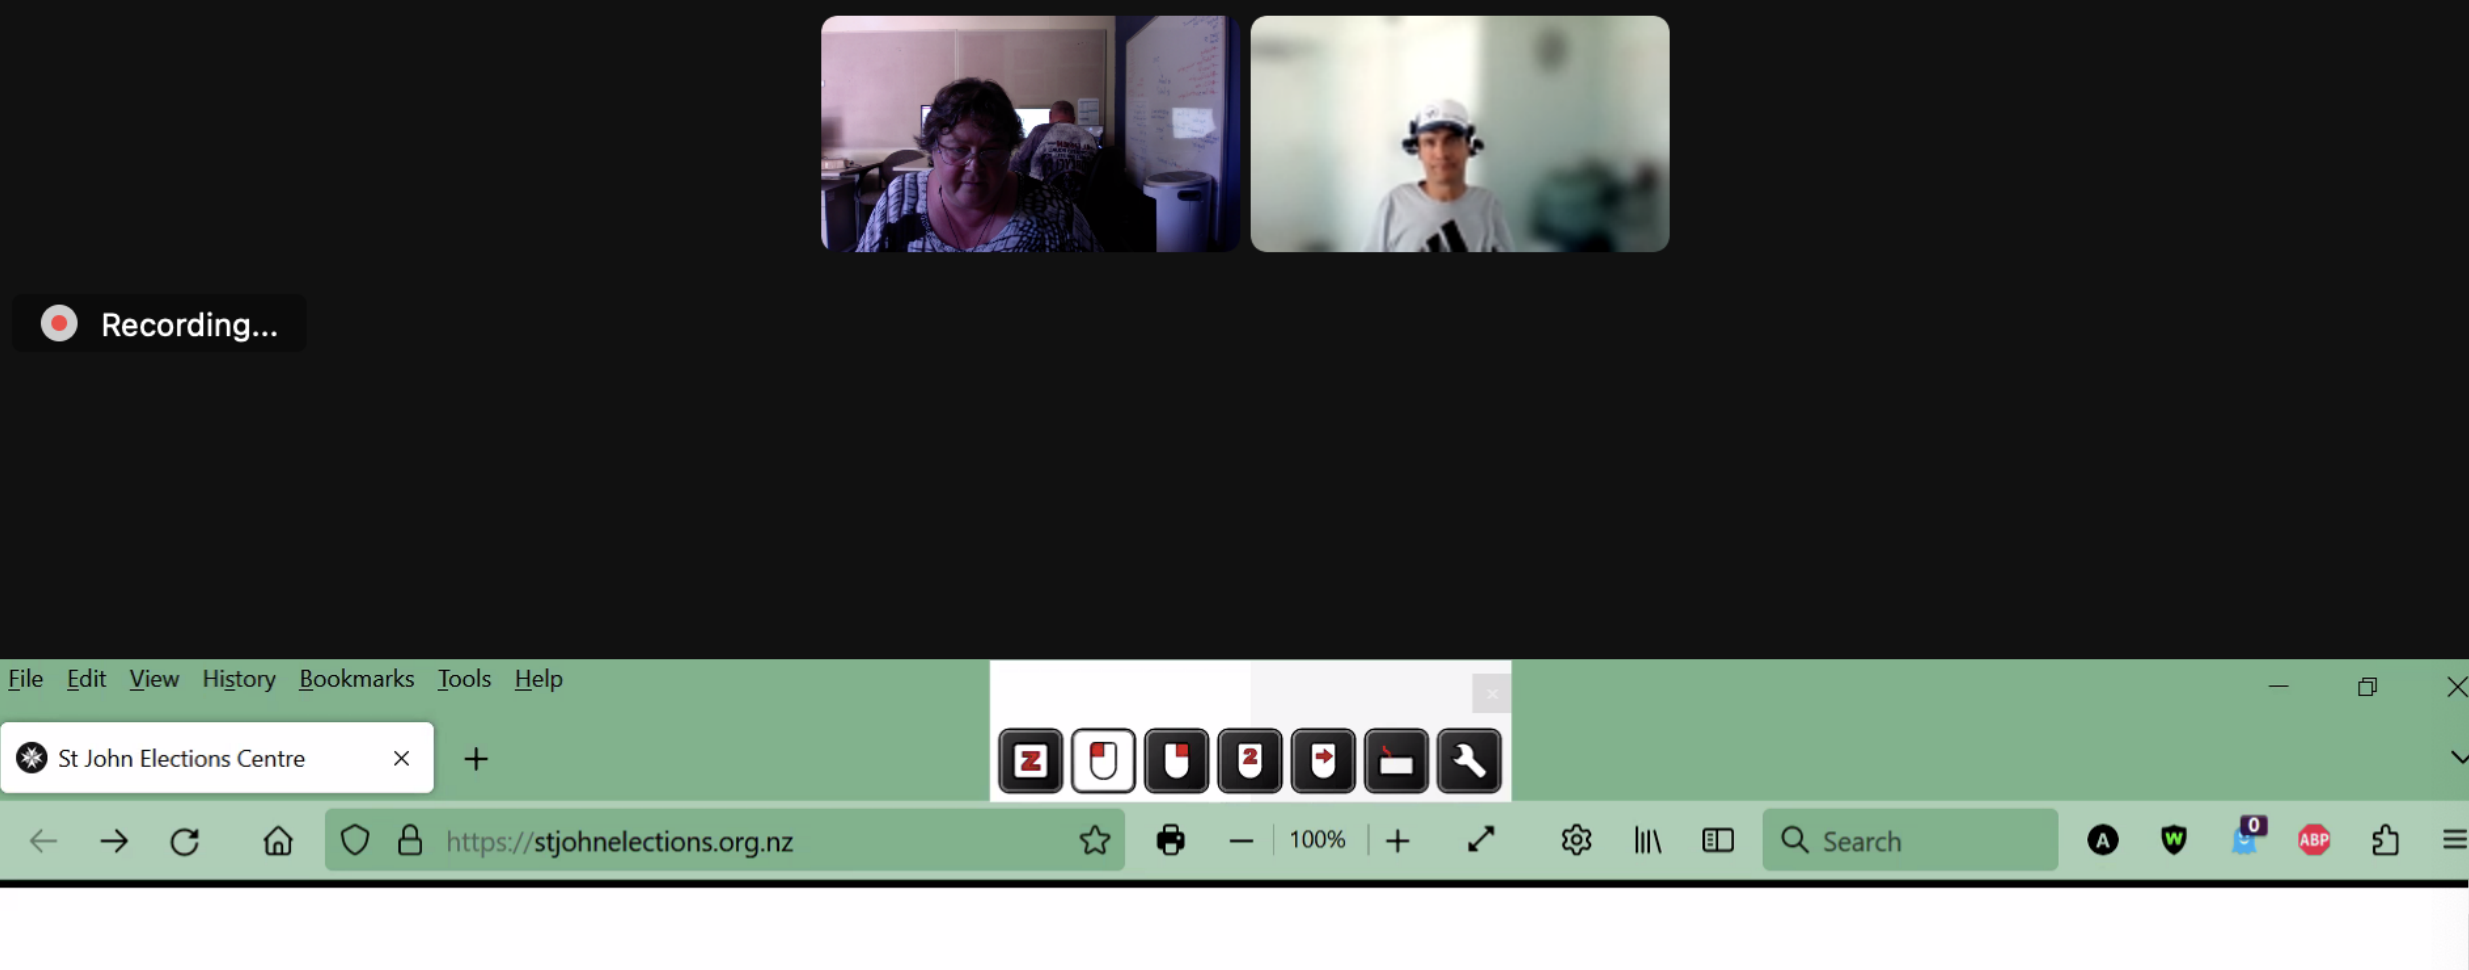

Barriers are reducing

Tech is changing _ Remote working is more possible

We all have access needs at some point

More awareness needed

Assistive/Adaptive Technology

Specialised Keyboards

Mice & Trackballs

Refreshable Braille Displays

Speech/Voice Recognition

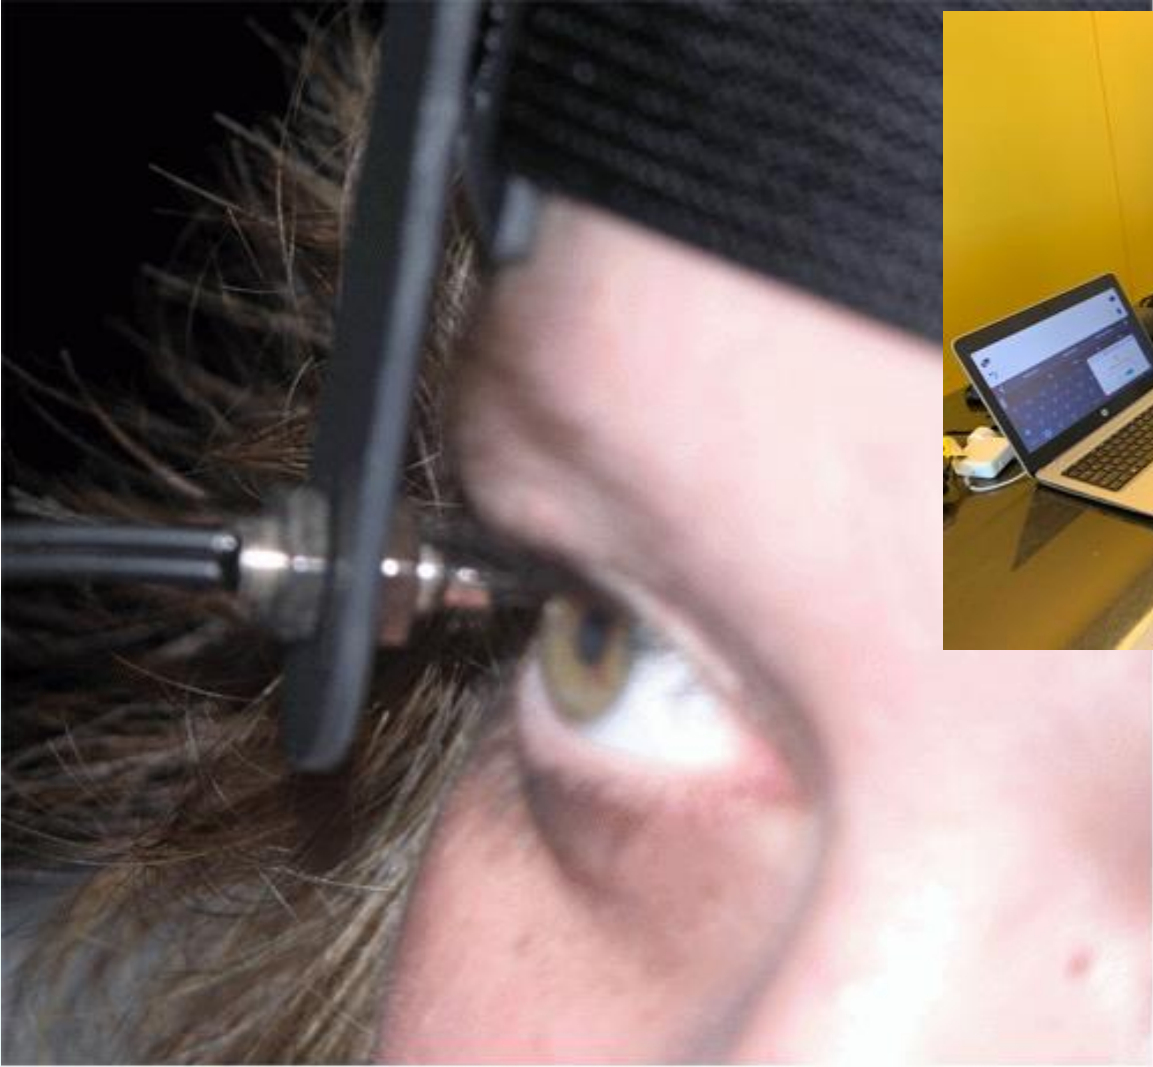

Headwands/Mouthsticks

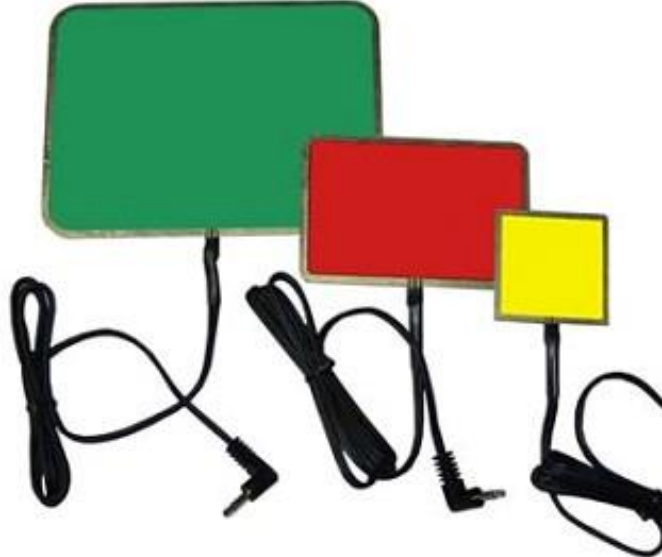

Sip and puff switches

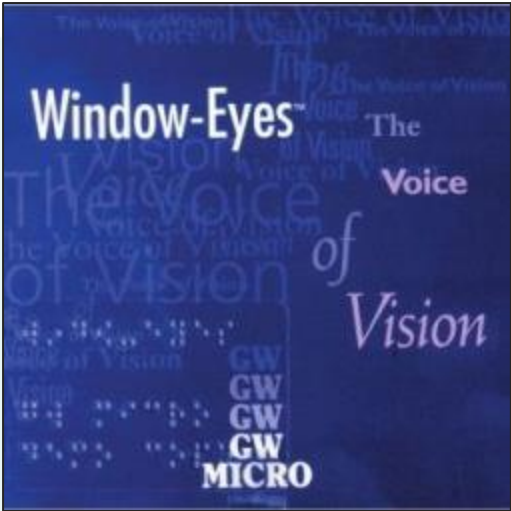

Eye blink switches

Communication devices

Screen Readers

Screen Magnifiers

Muscle movement sensors

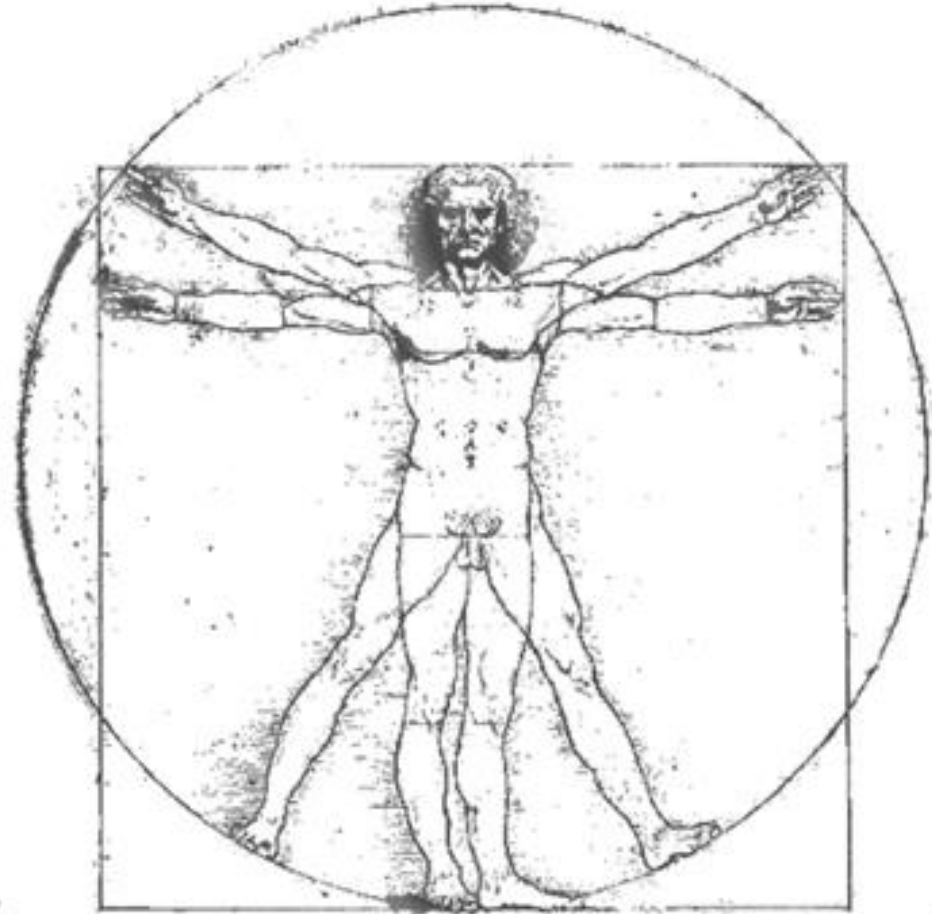

Mainstream Tech

Artificial Intelligence

Relax and realise we are all just people

Take aways

- 1. Barriers to employment are reducing**
- 2. Tech is changing all the time, allowing remote working etc**
- 3. We all have access needs at some point**
- 4. Greater awareness of tech solutions is needed**
- 5. Employers and employees have shared responsibility**
- 6. Assistive tech is becoming more 'mainstream'**
- 7. Artificial intelligence tools can help**
- 8. Remember that we are all just humans doing the best we can**

Thank you
